2019	67% A*-B

**Course Leader** Natalie Allen

**Exam Board** AQA

## Assessment

Written examinations

Independent investigation

## Extra curricular opportunities

Lectures at UWE and University of Bristol

Compulsory field trips

Abroad trip

## What will you study?

The Geography course will provide abundant opportunities for exploring the natural and human world around us. Fieldwork is a crucial aspect to further our understanding of our local landscape. The course covers a range of topics including our changing coastline, hazards across the globe, development and our interpretation of place. It will challenge and stimulate students' perceptions of places and develop a range of analytical and mathematical skills.

## Future pathways

Geography graduates have one of the highest rates of graduate employment, pursuing a wide range of career paths. As a skills-based subject it is well respected by employers. Career examples include environmental engineers, refugee and asylum advisor, town planners and flood protection manager.

**"Geography is a contemporary, exciting and engaging subject that provides you with an understanding of past and present processes that have shaped our modern physical and human environment. Through a two year course you can gain an insight in to global, regional and local issues within these environments. It will aim to excite a sense of wonder of the world around you."**
